### Traditional Seder with a Twist

One of the many ways to create peace in our world is through understanding. Join Keddem members, friends, and leaders from other religious practices as we celebrate a traditional seder with a twist. During the festivities, members of other faiths, including Muslims, Christians, and Pagans, will comment on the meaning of freedom and covenant from their perspective. Come create opportunities for understanding and commonality as we all share in the holy work of remembering and creating peace among all.
